

FLEXIBLE PACKAGING MANUFACTURER

FRESH PRODUCE PACKAGING
MADE OF RAFFIA & MESH

AVIENT SOLUTION

Hiformer™ Slip Additives

WHY AVIENT?

- Achieved 90% scrap reduction and ~12% productivity gain in customer's process
- Eliminated carbon contamination, gels, and color dispersion defects
- Leveraged film extrusion performance data to accelerate solution development
- Reduced storage needs and shortened downstream printing, cutting and weaving cycles

LEARN MORE

KEY REQUIREMENTS

- Improve processability and eliminate film defects (carbon, gels, poor color dispersion)
- FDA-compliant solution for primary food packaging targeting the U.S. market
- Precise dosing control and consistent surface uniformity via liquid additive technology
